## **Soundcore Life Q20+ Active Noise Cancelling Headphones**

### **What is a Bluetooth wireless headphone?**

Bluetooth wireless headphones enhances your listening experience with its noise cancellation feature and Bluetooth technology. Noise-cancellation improves listening by reducing unwanted ambient noise such as people talking or outdoor traffic. With Bluetooth technology, you can connect almost any mobile device such as a smart phone to another mobile device such as a smart speaker to enhance the sound quality without the need for cords. You can safely watch a movie, listen to music, and enjoy having a phone conversation without worrying about tangled cords, tripping over cords or knocking over electronic devices.

## Wireless Headphone: **Buttons and Connectors**

### **What's in the box:**

- 1. Headphones**
- 2. Aux Cord**
- 3. Micro USB Connector (Charging)**

## Wireless Headphones: **Getting Started**

- To pair “Soundcore Life Q20+” to your device go to your device’s settings  connected devices  + Pair new device  select “Soundcore Life Q20+”.

- Each time you power on your headphones, it will automatically connect to your last successfully connected device if available within the Bluetooth range.
- Once successfully connected with your Bluetooth device, NC (noise cancellation) will be turned on.

## Wireless Headphones: **Charging**

### Charging Your Headphones

Notification sound (Tone): There are only 2 hours

To charge your headphones you will need to use the **Micro USB Connector** and insert one end of the connector to the headphones **USB port** and insert the other end to a computer **USB port**. When the headphones are charging you will notice that the indicator light has turned red. **\*\*Do not turn on the headphones while its charging\*\***

When battery is low you will hear a notification sound. You will hear a voice prompt every 30 minutes when the battery has less than 2 hours of playtime left.

The indicator light will turn off once the battery is fully charged.
