# Leather Tool Kit Manual

What is included in the set?

## YARN SCISSORS

Made with an elegant and handy design, this pair of scissors will help cut off thread, fabric, and yarn. Its sharp blades are perfectly curved to help you avoid damages on the surface of the material you're cutting.

## SCRATCH WIRE WHEEL

- 4mm black scratch wire wheel x 1
- 2mm wooden handle scratch wire wheel x 1

Both scratch-wire wheels are useful tools for leather arts and crafts. They are sturdy enough to emboss dense leather, and they come with wheels that carry two different kinds of stitch spacing patterns. Most importantly, the steel overstitch and wooden handles make the tool convenient and safe to use even for beginners.

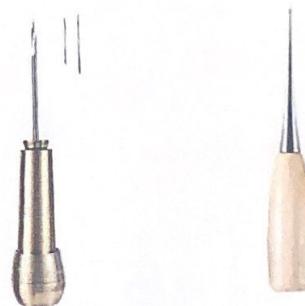

## NEEDLES

- curved needle x 1
- curved needle x 1
- 4.5cm triangle needle x 1
- 5.8cm triangle needle x 1
- 8.8cm pointed hand sewing needle x 1
- 5.3cm big eye pointed hand sewing needle x 1
- warping head triangle needle x 1

The curved needles are used for slip stitching and attaching outer-fabric sections. The triangle needles enable you to pierce and pass through materials such as leather, suede, and vinyl without tearing. Pointed hand sewing needles are used as a standard sewing tool for tough materials like leather.

## AWL

- awl x 1

- copper awl x 1

Used for punching, taking the thread and untie thread knot.

Copper awls are handy tools for sewing or repairing canvas leather bag, wallet, shoes, and other leather-based things. As part of the DIY tool set, they are widely used to punch holes, remove stitching, and marking layout lines on the leather surface.

# Leather Tool Kit Manual

## STITCHING GROOVER

Easy to adjust. Just loosen the chuck, adjust the blade, and retighten.

Including one positing hook ,three types trimming-head(0.8mm/ 1.0mm/ 1.2mm),One groove head(1.0mm),one presser-head(0.8mm), one detachable wrench.

## COPPER THIMBLE

The small tool is ideal for any sewing project. The metal thimble will protect your fingers from being pricked by needles and other sharp tools.

## FINGER COT

Slip the finger cot to protect you from any harmful chemical or possible injuries from the sharp tools you're using. Also protects the leather from any bodily chemicals that may harm the materials through time.

## SANDING STRIP

sanding strip x 5

Make the surface smoother through the grit in the sanding strips.

## TAPE MEASURE

Clear marks for your convenient measurement, help you create a striking impression with your work.

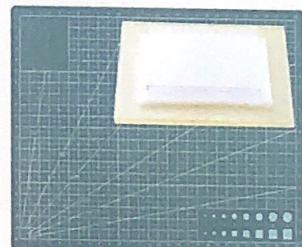

## COLORED WAX THREAD

natural color 150D 50m wax thread x 1  
black 150D 50m wax thread x 1  
multicolor 150D 50m wax thread x 1  
Light coffee 150D 50m wax thread x 1

Unlike any ordinary sewing threads, the wax thread has a sticky, wax-like coating making it stiffer and more water repellent. This is ideal for straight, fine, hand-sewn stitches for leathers.

## LEATHER MAT

Use the mat on the table to protect the desktop from damage and protect the tool

Ideal for the process of skiving or smoothing leather.
