How to connect the ATARI console to a TV?

Connect the game console to TV using the enclosed AV cable. Configure the TV input source to AV in, then press the POWER button on the game console. The console will detect the presence of a TV and display the game menu on TV screen automatically.

NOTE: For Plasma & LCD TV of over 32", please adjust your TV to the following setting for the best display result.

Back-Light: 100	Brightness: 36	Contrast: 70
Color: 60	Sharpness: 60	Aspect Ratio: 16:9

How to connect the wireless controllers with the console?

Switch the ON/Off button on the controllers to ON and the controllers will automatically connect with the console.

What are the two controller ports on the console for?

These ports are for the wired controllers (optional) and wired paddles (optional). These ports are also compatible with the original Atari 2600 wired controllers and paddles.

How to connect the wired controllers?

(Wired controllers are not included in this product.)

For 1-Player Games: Connect a wired controller to the left controller port.
For 2-Player Games: Connect a wired controller to the left controller port for player one, and connect another wired controller to the right controller port for player two.

How do I play the 4-player games?

The 4 player games are designed to be played by paddles. Please plug in your paddle controller(s) into controller port(s) on the game console.

How do I start playing?

1. Press the POWER button to turn on the game console. Press the POWER button again if you like to turn off the game console.
2. Use the player 1 (P1) wireless controller or use the wired controller that is connected to the left controller port to browse menu and select game: Move the joystick of P1 controller left and right to navigate the menu pages, and move the joystick up and down to highlight games on each menu page. Press the FIRE (red) or SELECT button on the wireless controller to enter the selected game.

3. Press the "START" on the game console to begin the game.
(For the games Aquaventure, Fatal Run , Gravitar and Swordquest: Earthworld, press the "FIRE" button on the controller to begin the game.)

How do I pause / unpause the game?

To pause, press and hold the FIRE button and a few seconds the SELECT button for a few seconds.

To unpause, press and hold the FIRE button and the START button for few seconds.

How do I switch back to game menu while playing a game?

Press the START and the SELECT buttons simultaneously on the main console, or press the RESET button on the wireless P1 controller, and the screen will go back to the game menu.

How do I adjust the game level?

Press "SELECT" on Main console, and then press "START" to begin the adjusted level.
