| Communication Distance | 100m(30ft)                                                  |
| Battery Life           | CR2016 x1 cell /<br>about 3 months using<br>ten times a day |
| Dimension              | 51mm x 26mm x 9mm                                           |
| Weight                 | About 8.0g                                                  |

**Battery**

Pull out the insulation sheet  
before using the remote  
camera trigger.

## How to Use

### 1. PAIRING

- Switch on the remote camera trigger and it will enter pairing mode automatically (LED blinking)
- Use your smart phone to search for nearby Bluetooth devices.
- Select and pair the device "AB Shutter 6". LED will turn off when phone is successfully paired.

### 2. SHOOTING

- Use your smart phone's camera to take photos (see next page for compatibility).
- Remote operates both photo and video modes, and works with most 3rd party camera apps.
- Visit [shopcanvasco.com/tuts](http://shopcanvasco.com/tuts) for video tutorial. Email [support@shopcanvasco.com](mailto:support@shopcanvasco.com) for support.

## Compatible Devices

Compatible with Android 4.2.2 OS or newer and iOS 6.0 or newer

| Compatibility                                                                                                                                                                                                     | Smart Phone Camera App   | 3rd Party Camera Apps |
