Safety and Maintenance

⚠ This symbol indicates "dangerous voltage" inside the product that presents a risk of electric shock or personal injury.

⚠ This symbol indicates important instructions accompanying product.

WARNING: To reduce the risk of fire or electric shock, do not expose this product to rain or moisture. Appliance shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the appliance.

Security Instructions

Read all of the instruction before using this Blu-ray player and keep this manual in safe place for future reference.

1. Read and keep these instructions.
2. Heed all warnings and follow all instructions.
3. Do not use this player near water.
4. Clean only with dry cloth.
5. Do not block any ventilation openings and install in accordance with the manufacturer's instructions.
6. Do not install near any heat sources such as radiators, heat registers, or the player (including amplifiers) that produce heat.
7. The polarized or the grounding type plug has an important safety purpose. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
8. Protect the power cord from being walked on or pinched particularly near the convenience receptacles, and the point where they exit from the player.
9. Only use attachments or accessories specified by Pixela.
10. Use only with the cart, stand, tripod, bracket, table specified by the manufacturer or sold with the player. When a cart is used, use caution when moving the cart/player combination to avoid injury from tip-over.
11. Unplug this player during lightning storms or when unused for long periods of time.
12. Refer all servicing to qualified service personnel.
Servicing is required when the player has been

CAUTION
RISK OF ELECTRIC SHOCK. DO NOT OPEN.

CAUTION: To reduce the risk of electric shock, do not remove cover (or back). No user serviceable parts inside. Refer servicing to qualified service personnel.

damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the player, the player has been exposed to rain or moisture, does not operate normally, or has been dropped.

13. Please keep the unit in an environment with good ventilation.

14. WARNING: To reduce the risk of the fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on apparatus.

15. WARNING: Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

16. Do not expose the batteries to excessive heat such as fire direct sunshine or similar sources.

CLASS 1 LASER PRODUCT

Use of controls, adjustments or performance of procedures other than those specified here in may result in hazardous radiation exposure.

Operating with the remote control

1. The remote control must point at the remote sensor, in order for the DVD player to function correctly.

2. The remote works best at a distance less than 5 meters and at an angle of up to +/-30° toward the front of the unit.

3. Obstacles should not remain in between the remote control and the remote sensor on the main unit.
Quick Starting Guide

1. Connecting to an External Power Source

Connect the power adapter (supplied with the player) to the side input plug and to a wall outlet. Do not use any other device otherwise specified by your dealer.

2. Open the screen panel.

The screen panel of the portable DVD opens to a maximum 180°. And it can rotate 270°.

3. Press the open button on the left to open the disc cover.

4. Insert a DVD disc with label side facing upward.

Align the center of the DVD disc with the center of the disc guide. Press gently down on the DVD to snap the disc into place, and then close the disc cover.

5. Slide the power switch on the left side of the unit to power it on.
6. Press the OK or PLAY/PAUSE button on the unit to start playback.

In most cases, when you leave by the PLAY/PAUSE button, continue to be used by PLAY/PAUSE button.

The DVD player will immediately start rendering the DVD program.

When you want to stop, press the STOP button, it will return to the power-on logo.

The player can be recharged while playback.

Connections

1. Connect to Earphones

1. Connect the earphones. earphones with a 3.5 mm stereo plug can be connected.

The right side of the portable

⚠ Avoid listening to sound at levels which may be harmful to your ears.

2. Connect to AV OUT

1. Turn off the power and unplug both units before setting up any connections.
2. Connect the AV cable to *AV OUT*.
3. Connect the yellow cable (Video) to the VIDEO-IN of the TV set.
4. Connect the red and white cable to the AUDIO-IN of the TV set.
5. Change the resolution to 480P/576P or 480I/576I by setup menu .
Please set the resolution to 720P for the best image effect of the screen after you finished using the the AV jack.

3. Connect to the HDMI

Connect the HDMI cable (not supplied) to the HDMI jack on this product and to the HDMI input jack on the TV.
Please change the resolution to 1080P for the best image effect.
Please set the resolution to 720P for the best image effect of the screen after you finished using the HDMI jack.
Tip
• You can optimize the video output by pressing the Resolution button repeatedly to select the best resolution the TV can support.
• To play the digital video images of a BD-video or DVD video via an HDMI connection, it is necessary that both this product and the display device (or an AV receiver/ amplifier) support a copyright protection system called HDCP (high-bandwidth digital content protection system)
• This type of connection provides best picture quality.

4. Connect Network
Connect this product to the network to enjoy software updates and BD-Live bonus content.
Connect the network cable (not supplied) to the LAN jack on this product and then connect the network cable to the LAN jack on the broadband modem or router.

5. Connect USB Device
A USB device card to play multi-media file.
Connect the USB device to the USB jack on this product.

Note:
We do not guarantee 100% compatibility with all USB devices.

6. Connect SD/MMC Card
A SD/MMC card to play multi-media file.

Connect the SD/MMC card to the SD/MMC socket on this product.
Note:
We do not guarantee 100% compatibility with all SD/MMC card.
To play the multi-media file on USB device or SD/MMC card. Press the STOP during playback, then press FUNCTION on the unit or on the remote.

Troubleshooting

WARNING: Before requesting after service please check this possible resolution. Risk of electric shock. Never remove the casing of the product. To keep the warranty valid, never try to repair the product yourself.

No reaction to the remote control	• Make sure the player is connected to a power outlet. • Insert the batteries correctly • Point the remote control at the IR sensor located on the front panel of this product. • If the remote still does not function, try putting new batteries into the remote control.
No picture/sound	• Make sure the connection is in good condition; volume is not too low; audio receiver or TV work normally; audio setting is proper.
No picture on HDMI connection	• If this player is connected to an unauthorized display device with an HDMI cable, the audio/video signal may not be displayed • Check if the HDMI cable is faulty. If faulty or damaged, replace the HDMI cable. • If this happens when you change the [resolution] setting, press Resolution on the remote control repeatedly until the picture appears.
High-definition video signal not playing on the TV	• Ensure that the audio cables are connected to the audio input of the TV • Assign the audio input of the TV to the corresponding video input. See the TV user manual for details.
No sound on HDMI connection	• You may not hear any sound from the HDMI output if the connected device is non-HDCP compliant or only DIVI compatible.
Disc cannot be played	• Ensure that the disc is loaded properly • Ensure that this player supports the disc. See Specifications. • Ensure that this player supports the region code of the DVD or BD • For DVD+RW, ensure that the disc is finalized. • Clean the disc

Data Files (JEPG, MP3,) cannot be played or read	• Ensure that the data file was recorded in the standard UDF, ISO9660 or JOLIET format. • Ensure that the JPEG file extension .jpg, JPG, jpeg or JPEG • Ensure that the MP3 file extension is .mp3 or MP3,
Not entry sign appears on the TV	• The requested operation is not possible
Unable to access BD-Live feature	•Check the network internet connection or ensure that the network Internet connection has been set up •Clear USB storage •Ensure that the BD disc supports BD Live Feature.
