### **Connecting Fire TV Stick**

1. Connect the power adapter - Plug the small end of the USB power cord into the Micro-USB port on your Fire TV Stick, and the other end into the power adapter. Then, plug the power adapter into a power outlet.

Note: We recommend that you use the included power adapter when setting up your device. Although some TVs have powered USB ports, there may not be enough power for Fire TV Stick to work properly. Do not connect Fire TV Stick through an unpowered HDMI hub or switch, as this can affect the device's performance.

2. Connect to your TV - Plug your Fire TV Stick into an available HDMI port on your TV. We recommend using the included HDMI extender or adapter to make sure that your Fire TV Stick fits securely into your TV.

Tip: Remember which HDMI port you used to connect your Fire TV Stick. You must select the corresponding input channel on your TV for the next step.

Tip: A "Save Wi-Fi Passwords to Amazon" option appears during first-time setup. This option allows you to securely upload your Wi-Fi network password with Amazon.

6. Register your device - Follow the on-screen instructions to register your Fire TV Stick to your Amazon account.

7. Get Started - After you complete setup, a quick "Welcome" video shows tips on how to use your Fire TV Stick.
