- * Printer has built-in battery. Charge the printer before using.
- * Handle with care during charging to prevent electric shock.
- * Do not disassemble or deform.
- * Avoid too high or low temperature or humidity.
- * The higher resolution the image has, the higher quality the printed photo has. Recommended image size is 1280*2448 pixel.
- * Operating Temperature : 0-40℃ (32-104 °F)

Troubleshooting

Symptom	Cause / Solution
Paper Jam	Power off and Power On again. Paper will be automatically ejected If not, please contact customer service.
Image quality is not good.	Print quality could be less if your photo source has low resolution. Over 1280 x 2448 pixel is recommended for best image quality.
Camera is not responding	Press Reset button with sharp tool like pin.
