

LCD Basic Operations

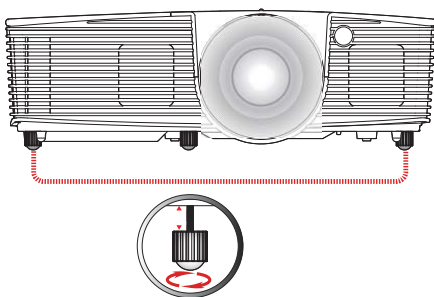

Warning Indicator

When the "Temp" indicator lights red, it indicates the projector has overheated. The projector will automatically shut itself down.

Adjusting the Projected Image

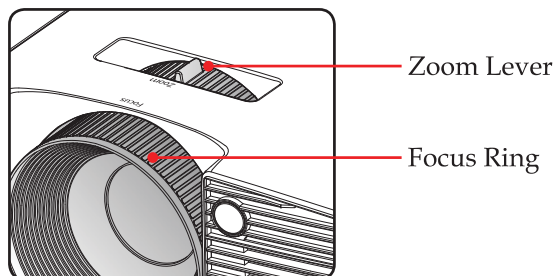

The projector is equipped with adjustable feet to raise and lower the image to fill the screen.

1. Locate the adjustable foot you wish to modify on the underside of the projector.
2. Rotate the adjustable ring clockwise to lower it. Repeat with remaining feet as necessary.

Adjusting the Projector Zoom and Focus

You may turn the zoom lever to zoom in or out. To focus the image, rotate the focus ring until the image is clear.
