## Connecting Roku Streaming Stick+

Finally, attach the advanced wireless receiver firmly to the Roku Streaming Stick+. A poor connection will prevent your Streaming Stick+ from connecting to your wireless network and ultimately the internet.

Note: If you recently moved your Roku Streaming Stick+ from another HDMI input, or another TV altogether, make sure to check that all connections are secure before use.

## Setting up Roku Streaming Stick+

Make sure the correct TV input is selected on your TV (the input to which your Streaming Stick+ is connected). You should see the Roku logo on the TV screen as your Streaming Stick+ powers on.

## Setting up Roku Streaming Stick+

Make sure the correct TV input is selected on your TV (the input to which your Streaming Stick+ is connected). You should see the Roku logo on the TV screen as your Streaming Stick+ powers on.

To get started, connect your Roku Streaming Stick+ to an available HDMI port on your TV. If you plan to stream movies and TV shows in 4K or 4K HDR, remember to select an HDMI 2.0 port that supports HDCP 2.2.

If your Roku Streaming Stick+ will not easily connect to the HDMI port on your TV due to space restrictions, then you may wish to connect with the HDMI extender cable.

Next, plug the USB power cable with advanced wireless receiver into a suitable power source – either the USB port on your TV, or preferably, a wall outlet (when used with the USB power extender cable and power adapter).

**Note:** The USB port on some TV's may be unable to power a Streaming Stick+. If you see the on-screen warning message that appears in these cases, use a wall outlet.

## 1. Choose a language

--The first screen you see will allow you to choose a language. All text and dialog within the Roku application will be displayed in the selected language.

--Scroll up and down the list and press the OK button on your Roku remote to choose a language.

**Note:** It is the responsibility of the channel publisher to translate their channel and some channels may not support your chosen language.

## 2. Connect your Roku Streaming Stick+ to your network and the internet

--Choose your wireless network from the list of available networks and enter your password. This is most often the same network you use to connect your computer or smartphone to the internet. If you do not see your network, select Scan again to see all networks.

--If you want to see your password as you type, choose **Show password**. This can help prevent entering the wrong password. Remember, passwords are case-sensitive. Use the shift button ↑ on the on-screen keyboard to enter a capital letter.

--Once you have entered your password and selected **Connect**, your Roku Streaming Stick+ will automatically connect to the internet.

### 3. Wait for your Roku Streaming Stick+ to download the latest software

--Once connected to the internet, your Roku Streaming Stick+ will download the latest version of Roku OS software and then reboot.

### 4. Set the display type

--Select **Auto detect display type** and your Streaming Stick+ will analyze the HDMI connection to determine the supported video resolutions. To have your Streaming Stick+ automatically choose the best display resolution so you don't have to manually configure the settings, choose **OK, go to automatic**. To change the display type at a later time, go to **Settings > Display type**.

--Instructions for activating your Roku Streaming Stick+ will be displayed on your TV, including an activation code; e.g. "XCV5TG". You will be required to visit [roku.com/link](http://roku.com/link) on your computer or smartphone, enter the code and follow the instructions to activate your Roku Streaming Stick+.

**Note:** Roku does NOT charge for device activation. When entering [roku.com/link](http://roku.com/link) into your web browser, type it carefully to avoid fraudulent websites.

### 7. You are done!

Once you have completed all activation steps, your Roku Streaming Stick+ will be ready to use.

Tips: You can personalize your Roku Streaming Stick+ by changing your theme or screensaver. You can use the Roku Channel Store to add new streaming channels, games, themes, screensavers, and other apps.
