

Use of Device

Plug your personal device's USB cord into the USB port on the charger. Now plug the cord into your personal device.

Single tap the power button to see how much battery is left on the charger.

Hold down the power button to turn on the flashlight. Continue tapping the button to change the type of flashlight.

Recharging the device

Flashing blue light indicates that the device is charging.

Fast charging: Plug the charging cord into any USB port. When all 4 lights become solid the device is fully charged.

Slow charging: Put the device in direct sunlight to use the Solar charging feature.
